

LEGAL SERVICES

01 WILLS (Succession Planning)

- Our ancestors never had wills, so why should we?
 - Laws change everyday. In the past, women were not allowed to inherit property and now they are equally entitled as their male counterparts. Unfortunately Traditions don't change, even if the law evolves.
 - It also didn't matter what the wishes of the deceased were, the property was typically transferred to his immediate family. In most cases, distant relatives would dispute any bequest leading to the estate being frozen in court for years.
 - Even if you want your family to have your estate, certain people may be entitled to a claim on it. Having a will ensures that you have considered every possible contest over your estate, giving your family peace of mind.

- You can appoint people you trust as your executors to deal with your estate after you are gone, including fulfilling any directions regarding your funeral.

- You can name guardians to look after your children.

- In addition we include Free Power of Attorney for Health Care to guarantee that your wishes are followed in case you are incapacitated.

Overall having a will gives you and your loved ones peace of mind.

04 PARENTAL RESPONSIBILITY AGREEMENTS

Regardless of your marital or relationship status with your partner, the only way to guarantee a continuous protection of your children rights and wellbeing is by having a Parental Responsibility Agreement, where both parents set Obligations and Rights.

02 PRE-NUPTIAL AGREEMENTS (Matrimonial Planning)

We provide both parties the ability to choose which assets shall be deemed as matrimonial property (family property, if you please) and what will remain individual property.

03 TRUST FUNDS

- We are a pioneer firm offering Trust Funds in Kenya at a very minimal cost.
- With Trust Funds you can protect yourself and your family from unscrupulous people.
